

# TGOP Outdoor Protection

TECHNICAL DATA

## Features:

- Environmental rating IP66
- Additional air purge collar allows for a continuous operation in dusty and humid conditions
- Heating element and built-in fan enable for a 24/7 operation from -40 °C to 50 °C [-40 ...122°F]
- Optional Installation of USB Server for integration into control systems over large outdoor distances

## TECHNICAL SPECIFICATIONS

Environmental rating	IP 66
Ambient temperature	-40 ... 50 °C [-40 ... 122°F]
Heating	PTC heater (automatically starting at T< 15 °C [59°F]) / fan for homogeneous temperature distribution
Power Supply	24 V DC
Power	70 W
Protective window	Germanium (Ge), zinc sulfide (ZnS), Borofloat or foil
Air purge collar	Integrated
Air pressure	Absolute pressure 1.1 bar at 20 - 100 l/min
Integrable additional Components	USB Server
Material	Aluminum
Weight	2 kg / 2,5 kg with wall mount bracket
Max. FOV	90° (HFOV)
Accessories	Optional wall mount bracket <sup>1)</sup>

<sup>1)</sup> This accessory is absolutely necessary for a problem-free wall mounting of the Outdoor protective housing

## DIMENSIONAL
